

SL4 eLED MK2

The high intensity LED and incredible battery life move the SL4 to the top of the chart for dive travel. Compact size and narrow penetrating beam allow you to see way to the back of an overhang on the wall, daytime or night. As an added bonus the SL4 is equally at home at work or around the house as well as in bad weather.

This updated and enhanced MK 2 version of the SL4 uses a digital controller to maximize output of all four C-size batteries. The SL4 MK 2 boasts an eye-watering 600 lumens of brightness while retaining all the great qualities that made it the most popular dive light.

FEATURES

- High brightness and extended battery life minimize need to change batteries
- Single handed switching with thumb or index finger
- LED will not break when dropped and lasts thousands of hours
- Equally great performance in and out of water for home or work
- Controlled output for constant brightness during battery life
- Rubber sheath molded over bezel to reduce glare and improve impact resistance
- Tough, non-corroding ABS and polycarbonate plastic construction

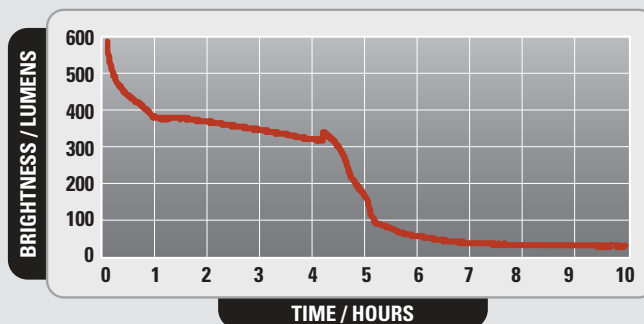

*One-handed
switch operation*

SPECIFICATIONS
